+92 306 7860614 | hassanf0614@outlook.com

Software Engineering and Systems Operations professional specializing in infrastructure monitoring, observability, incident management, log analysis, automation, access control, documentation, and service reliability. Experienced with Prometheus, Grafana, ELK Stack, Elasticsearch, Logstash, Kibana, and Linux/Unix systems. Strong background in alerting, dashboards, root cause analysis, mean time to resolution improvement, recovery scripting, requirements analysis, BRD/SRS documentation, database schema design, workflow modeling, UAT, defect tracking, SLA/SLO awareness, and production support.

EXPERIENCE

TECHNICAL PROJECT CONTRIBUTOR

Stonework Construction | Lahore, Pakistan

04/2025 – PRESENT

Developed functional specifications, BRD/SRS documentation, user workflows, technical blueprints, data models, and database schemas for an internal property management platform. Translated stakeholders need application features for transaction tracking, asset lifecycle management, reporting, audit-ready data standards, workflow automation, and role-based access requirements. Supported UAT, defect tracking, test cases, documentation, change requests, stakeholder feedback cycles, usability improvements, and application performance optimization.

SYSTEMS MONITORING & AUTOMATION ASSOCIATE

Sterick Tech | Lahore, Pakistan

02/2024 – 02/2025

Configured Prometheus/Grafana observability, alert thresholds, service health dashboards, and ELK Stack log pipelines across distributed Linux/Unix systems. Automated recovery scripts, fault logging, incident triage, log analysis, root cause analysis, escalation workflows, uptime monitoring, and mean time to resolution improvement with development teams. Maintained access control, security compliance, operational runbooks, audit checks, health checks, production support, and service continuity for critical systems.

EDUCATION

BS SOFTWARE ENGINEERING

The Superior University | Lahore, Pakistan

CURRENTLY ENROLLED, 7TH SEMESTER | EXPECTED
COMPLETION: JUNE 2027

Relevant focus: Systems Architecture, Infrastructure Automation, Digital Operations. **Coursework:** Distributed Systems, Operating Systems, SCADA Foundations, Network Management.

ASSOCIATE DEGREE: COMPUTER SCIENCE

University of Management and Technology | Lahore, Pakistan
| 11/2024

Awarded 52 credit hours of advanced course exemptions.

SKILLS

- **Monitoring:** Prometheus, Grafana, ELK Stack, dashboards, alerts, SLA/SLO awareness
- **Operations:** Linux/Unix, incident response, root cause analysis, mean time to resolution, log analysis, runbooks
- **Automation:** Recovery scripts, fault logging, health checks, compliance audits
- **Software:** BRD/SRS documentation, requirements analysis, database schemas, workflows, UAT
- **Collaboration:** Agile/Scrum, stakeholders, documentation, process improvement
- **Languages:** English B2, Urdu native/bilingual
